

## S800 SEMI AUTOMATED PLANT (Double)

### Description

A plant for 'Africa'. A robust and practical plant for use by any workforce with optional automated stages to increase productivity and output.

### Specifications

Two hydraulic vibrated machines with hydraulic skip chute and mould box lifting actions, 500L skip chute, 500L mixer and 6m conveyor to feed machine.

### Static Data

Production Output	Drop Qty	Production per Hour	
		Standard	Automated
Bricks 220x105x72	32	3700	7200
Hollow Block 390x190x190	6	540	1080
Hollow Block 390x190x140	10	900	1800
Interlock Pavers 200x100x60	24	2460	4800

\* Production output may vary from area to area and operating conditions. Should be used as a target estimate only.

Labour Force	19-21
Approx. Cement Usage	7% - 8%

Power Requirements	Phase	Standard	Automated
Single Green	3 Phase	65A	110A
25m Chain Conveyor & Gantry	3 Phase	13A	13A

### Optional Extras (Semi Automation)

1. Hydraulic aggregate feed
2. Hydraulic pallet feed
3. 2X 25m Chain conveyor and gantry for skid board handling
4. Aggregate weighing system
